TEN KILLED, SCORES HURT IN OIL PLANT EXPLOSION

PHILADELPHIA, Sept. 15.—Investigation of the explosion and fire yesterday at the Point Breeze plant of the Atlantic Refining Company, which resulted in the death of ten workmen and the injury of a score of others, was ordered today by Governor Cortelyou, of the department of public safety. Several of the injured are in a serious condition and additional deaths are expected momentarily by hospital physicians. It was the second serious fire at the plant within a month. In the first blaze five persons lost their lives and damage to property was estimated at \$1,500,000. The financial loss yesterday was comparatively small.

Yesterday's fire is believed by officials of the company to have been caused by a loose connection in one of the tubes leading from a naphtha still to a nearby vat. The hot oil pouring from this leak, it is said, came in contact with the flames from the furnaces beneath the still and resulted in the explosion.

Rockaway Beach Swept By Fire

NEW YORK, Sept. 15.—A block of 1,000, bath houses and amusement places on the board walk of Rockaway beach, which is on the ocean side of Long Island and vies with its neighbor, Coney Island, as a city summer resort, was destroyed by fire today, some estimates placing the loss at \$500,000. Two men were missing from one of the hotels after the flames were under control.

Arbuckle Will Probably Go On Trial For "Manslaughter"

MOVIES AND MORALS CAN A GIRL BE GOOD AND SUCCEED? MRS. CALHOUN ANSWERS

MOVIES and morals are being discussed everywhere as a result of the Arbuckle case. What price must a girl pay for a movie career? people ask. The question is answered in these series of articles written especially for The Times by Mrs. Florence Calhoun, mother of Alice Calhoun, the Vitaphone star who in five years has risen from a \$5-a-day extra to a \$1,000-a-week performer.

BY FLORENCE CALHOUN
Mother of Alice Calhoun, Vitaphone Star, the Youngest in the Movies

OF MORALS and the Movies much has been said; how do film plays influence the morals of the audience? How far does public taste determine the ethics of shadow-land?

In the fan mail of every successful star come many queries about the fitness of movie-land as a place for a girl to make her career.

As the mother of Alice Calhoun I have been fated to read an enormous number of such letters. I think that a single brief answer covers them all:

Human beings are the same, on a set or off; human nature can't be changed by a make-up; nor the heart of man or maid by a costume; nor

ALICE CALHOUN

conduct by the ability to act a part. Alice Calhoun and I are still very new to the magical mysteries world behind the silver sheet. So new that it seems only yesterday since I, the mother, hovered close to the broad chalk line, studied the actors moving briskly through a scene, and asked anxiously:

"Where's my daughter? Where's Alice?"

SAN FRANCISCO, Sept. 15.—A county grand jury indictment charging Roscoe C. (Fatty) Arbuckle with manslaughter in connection with the death of Miss Virginia Rappe, motion picture actress, after she had attended a party in his rooms in the St. Francis hotel, was returned to Presiding Judge Shortall, of the superior court, today.

SAN FRANCISCO, CAL., Sept. 15.—Decision to try Roscoe (Fatty) Arbuckle, the film comedian, on a charge of murder or manslaughter, in connection with the death of Miss Virginia Rappe, film actress, is expected to be made by District Attorney Matthew Brady today.

Arbuckle has two separate charges pending against him. In one, a complaint sworn to in police court by Mrs. B. M. Delmont, friend of Miss Rappe, Arbuckle is charged with murder. Following this charge on last Tuesday night, the grand jury indicted him for manslaughter and the true bill is to be returned before Superior Judge E. P. Shortall some time today.

District Attorney Brady announced that he would confer with his assistants to determine on which of the two charges he would bring Arbuckle to trial. It was pointed out by Brady that should it be decided to try the film star on the charge of manslaughter and the murder charge be dismissed, Arbuckle would be admitted to bail. Under the California law a person charged with murder can not obtain bail.

Threat Of Violence Against Arbuckle

SAN FRANCISCO, Sept. 15.—A threat of violence against Roscoe (Fatty) Arbuckle "if justice is not done" in his case was contained in an anonymous special delivery letter received from Sacramento today by Harry Kelly, secretary of the county grand jury. The letter was turned over to the police.

Arbuckle bid good-bye to his cell mate, David Bender, who escaped from the Maryland penitentiary. Bender left today in charge of a Maryland official to serve the remainder of his term. Bender wished Arbuckle "good luck" and the film comedian reciprocated the sentiment.

The coroner's inquest into the death of Miss Rappe was the most important feature of the Arbuckle case yesterday. The coroner's jury returned a charge of manslaughter.

Telegrams were received by District Attorney Brady yesterday, asking him to prosecute the case vigorously. Arbuckle, too, received telegrams, eighteen of them, the contents of which were not made public. The telegrams to Arbuckle were sent in care of the chief of police.

BABE RUTH SMASHES HOME RUN RECORD

NEW YORK, September 15.—Babe Ruth made his 35th home run today, breaking his last year's record of 34 during the season. It was in the fifth inning of the first game of today's double-header between New York and St. Louis. One man was on base at the time and Bayne was pitching.

BANK OFFICIAL SLAIN
DODGE CENTER, Minn.—O. T. Rounsville, vice president of the First National Bank of Dodge Center, was shot and killed in the bank by a man who was captured by a posse just outside the town.

DeValera Demands Independence

LONDON, September 15.—Premier Lloyd George has replied to the latest communication of Eamon DeValera on the question of an Irish settlement, it was announced late today. The reply, it was stated, would be given out at once.

LONDON, September 15.—(By the Associated Press)—Eamon DeValera's latest letter to Premier Lloyd George declares a willingness on the part of the Irish negotiators to enter the proposed conference at Inverness, but only as representatives of a sovereign state, it was learned here today.

DUBLIN, September 15.—Eamon DeValera in his reply to Premier Lloyd George, accepts the invitation to the proposed Inverness conference in the terms of the final paragraph of Mr. Lloyd George's last letter, but reaffirms Ireland's independence as a sovereign state and declares that only as representatives of such have the Irish negotiators any authority.

The text of DeValera's reply says: "In this final note we deem it our duty to reaffirm that our position is, and can only be, as we have defined it, through this correspondence. The principle of government by consent of the governed must be the basis of an agreement which will achieve a final reconciliation."

"We hope that these representatives (the Sinn Fein negotiators) will find it possible to be at Inverness on the date you suggest, September 20."

CRISIS ARISES IN LEADERSHIP OF THE REPUBLICAN PARTY IN CONGRESS; GROUP FIGHT LOOMS

BY DAVID LAWRENCE

(Copyright, 1921, by Times Pub. Co.)
WASHINGTON, Sept. 15.—A crisis has arisen in the leadership of the Republican party in Congress. The report of Senator Penrose, chairman of the Senate Finance Committee, who is to put through the proposal of the Harding administration that excess profits taxes be repealed as of the January, has left the executive branch of the government in an embarrassing position. Secretary Mellon has not only turned down by the House but his proposals have been rejected by the Senate Finance Committee, where it was confidently believed the wishes of the President and Secretary of the Treasury would be carried.

No Leader In Sight

This situation, which naturally dispirited all business men who had been promised by Republican leaders that the Harding administration would immediately be further compelled by the knowledge that shortly after Lodge, majority leader, will be absorbed in his duties as a member of the American commission to the permanent conference and that as well as other matters will be undertaken by somebody. It is true that the Democrats

Seek Permanent Policy To Combat Unemployment

Need More Women Preachers

CHICAGO, Sept. 15.—If there were more women preachers in the pulpits, there would be more men in the churches, Mrs. M. Madeline Southard, president of the International Association of Women Preachers, told members of that organization at their convention here.

Mrs. Southard accused men of "feminizing the church," and asserted that if there were more women preachers, more men would become interested in church work.

Quoting Francis Willard, she said: "Men have been preaching for 2,000 years and the large majority of their converts have been women. Suppose that women should share the preaching power, would not the majority of their converts be men?"

Moors Show Much Fight

Madrid, September 15.—Moorish tribesmen who have been fighting against Spanish outposts near Melilla, Morocco, are offering resistance to the advance of Spanish columns, which on Monday began an offensive southwest of that city. This information was made public shortly after midnight this morning in an official statement, which added that Moorish cannon at Gorgona had bombarded the suburbs of Melilla yesterday.

NAMED COMMANDER-IN-CHIEF

MINNEAPOLIS, MINN., September 15.—Oscar E. Carlstrom, of the department of Illinois, was elected national commander in chief of the United Spanish War Veterans on the ninth ballot, taken early today. The ballot, not begun last night and continued until 2 a. m. The convention will adjourn late today.

Need More Women Preachers

WASHINGTON, Sept. 15.—Unemployment of a permanent policy to combat unemployment throughout the country in future years was said authoritatively today to be one of the purposes of the administration in assembling in Washington a national conference on unemployment.

Primarily the administration is understood to be anxious to meet immediate unemployment needs and avert any hard ship from this source during the coming winter. But beyond the remedy of the moment, it was asserted, the administration would look to the conference to develop a constructive program which would be followed in the succeeding years.

Comprehensive statistical data, it was said, covering all phases of the problem, is understood to have been prepared for the use of the conference by economic experts. This data, it was said would give the latest authoritative information on the causes, places and times of unemployment in the country. On the basis of these facts, it is believed, the conference can take up quickly the problems of seasonal scarcity in the demand for labor, the localities most in need of assistance and the underlying reasons for the variations in the numbers of workers. Constructive and workable remedies to meet the situation in the different geographical divisions of the country and the various industries, it was said, would be suggested by the conference after studying the unemployment question from all angles.

Schooner Founders

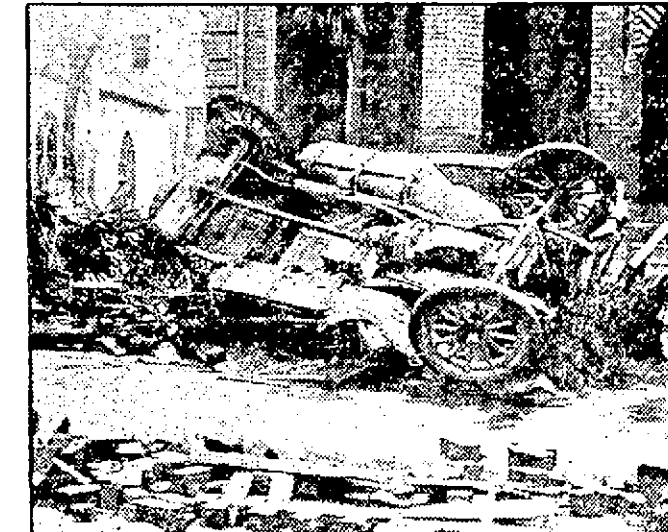

BRIDGETOWN, Barbadoes, Sept. 15.—The schooner Majestic, commanded by Captain Barries, with 32 passengers and crew, from Demetara for Barbadoes, is believed to have been lost in the hurricane which swept over this region September 8. The British warship Valerian returned here today from an unsuccessful search for the schooner.

Four boatmen were drowned here during the storm, but only slight damage was caused to the sea front.

The San Antonio Flood

Looting followed the flood in San Antonio, which wrought havoc to life and property, but soldiers quickly stopped the looters. A soldier's bullet killed a looter on the spot where the soldier stands in this picture.

Torrents of water, tearing through the streets, swept all before them, as they destroyed scores of lives and millions of dollars worth of property. This auto was carried along for blocks, as if it were a bit of wood, and left as you see it.

The flood tore houses from foundations as if they were chips. Here are a couple carried far from their original sites.

RAILROAD UNIONS TO DISCUSS STRIKE VOTE

CHICAGO, Sept. 15.—Decision as to whether the nation will face a general railroad strike may result from two important meetings to be held here next week. On Sunday the representatives of 500,000 railroad shopmen will meet here to determine what action to take in regard to the wage cut and changes in working rules, effective July 1. A country-wide ballot taken some time ago is said to have resulted overwhelmingly in favor of a strike. The result of the vote will be made known at the meeting over which B. M. Jewell, president of the railway employees' department of the American Federation of Labor, will preside.

Entire Negro Population Flees The Town

CHATTANOOGA, TENN., Sept. 15.—Walden's Ridge, a little mining town 20 miles east of here, the scene late yesterday of a race riot, was completely deserted by its negro population today and no further trouble was anticipated.

About three score miners with their families who made up the negro population fled when the trouble started, leaving their possessions behind in their cabins and declared their intention of never returning.

The riot was precipitated by the shooting of three white girls by a negro girl, Henry Clipper, negro, it was said, claimed ownership of a spring on the outskirts of the village and had purchased a shotgun with which to keep others away. When Edna Barnett, aged 12, and her two younger sisters went to the spring, Jewell Clipper,

young daughter of Henry, fired at them, wounding all three. Older members of both races took up the affair and a number of shots were exchanged without damage.

When a sheriff's posse from Chattanooga arrived they found all the negro cabins empty except that of the Clippers, who were barricaded with doors and surrounded by a mob of about 150 persons, armed with all sorts of weapons. The negroes were arrested and placed in jail for their own protection. Local authorities are continuing the investigation today and arrests of a number of white men involved in the trouble was expected.

Edna Barnett was said to have been peppered with bullets and her condition was considered serious. The others were not badly hurt.

Attempt To Cut Plans Part Out Her Tongue Time Schools

BISSIE, ARIZ., Sept. 15.—Posses today were pressing the search in the Gold Gulch hills near the border for the band of Mexican raiders who attacked Miss Sadie Champion, of Warren, when they were discovered stealing cattle on her ranch. She could give only a partial account of the attack, but said that the three Mexicans dragged her from her horse, kicked and beat her, and attempted to cut out her tongue. She had severe cuts about her mouth.

To Reorganize Motor Transport
WASHINGTON, Sept. 15.—Matthewson, of New York, was appointed special assistant to the postmaster general to reorganize the motor transport service of the postal service, according to an announcement by Postmaster General Hays.

COLUMBUS, O., September 15.—Boards of education are urged by the Director of Education Riegel in his first official communication to them since the opening of the schools to establish part time schools for children who work and have only an hour or two each day to attend school, and the opening of high schools, wherever possible or the teaching of some high school subjects where there is no regularly organized high school. Mr. Riegel also emphasized the teaching of hygiene and physical education.

FRUIT DEALER BANKRUPT
TOLEDO, O., September 15.—Anton A. Brune, fruit dealer, Marion, Ohio, filed a voluntary petition in bankruptcy in the United States district court here today. Brune listed his assets at \$3,000 and his liabilities at \$7,116.41.

Thief Ransacks House

A skeleton key was used by a bold thief who visited the home of Alfred Schaefer, 112 Union street about seven o'clock Wednesday night, to ransack the home. Mr. and Mrs. Schaefer had left the house. The man went in the door and ransacked the entire house, upstairs and down. The thief was evidently after money for he took only about \$7 in money and Mr. Schaefer's gold watch, overlooking considerable silverware in the drawers he ransacked. Other articles of jewelry were overlooked by the thief who made his escape down Union street before the police arrived.

Amateur Golf Tourney to Open

LOUIS, Mo., Sept. 15.—Trophies for the twenty-fifth annual national amateur golf tournament were placed on display here today, coincident with the opening of the St. Louis Country Club, where the tournament is to begin, starting Saturday.

Galleries of fans have followed the entrants during their practice rounds during the past few days and have watched some of the celebrities score good marks. Close followers are of the opinion that the tournament will see par for the course bettered. Chick Evans made the course in 71 or one under par early this week.

Rain Will Not Stop Match

CLEVELAND, Sept. 15.—Rain will not interfere with the twelve round bout between Johnny Kilbane, featherweight champion, and Danny French, Baltimore challenger, here Saturday. The promoters announced in a signed statement today.

In the event of rain in the afternoon, it is proposed to stretch a tarpaulin over the ring at Dunn field. If necessary the bout will be held in the evening.

The principals are expected to enter the ring about 1:30 o'clock Saturday afternoon.

Kilbane worked in private today. French did only road work and light training.

RED CROSS PASSES RESOLUTION ON DEATH OF THE LATE MR. F. B. KEHOE

That the Scioto County Chapter of the American Red Cross feels fully the important part the late Mr. F. B. Kehoe, treasurer and executive committee member played in the work of organization, is expressed in the following resolution:

"The Scioto County Chapter of the American Red Cross deeply mourns the death of Mr. Frank B. Kehoe, who served as its treasurer and a member of the Executive Committee from the beginning of the Chapter until his death.

"His faithful, loyal and untiring efforts in behalf of his country in time of war, and for the success of the Red Cross work in this county, is well known to all citizens, and we wish to record our deep appreciation of his work and our expression of sorrow at his death. The successful history of our Chapter would not have been written without the help of the self-sacrificing work of Mr. Kehoe."

Sept. 15, Today, Last Day For Ye Old Straw Lid

Part the well, O honorable, dinky lid of plaited straw!

You will "look so natural" in your ashen lid in the day that M. Darius Fashion decrees shall be your last in company with the world of men. Thursday is the fifteenth day of September and preliminary orders for your fore-fall demise have already been sent throughout the land.

Except for the prevalent few who will have their hot weather lids furnished to be put away for another season, most males of the species will throw away their yellow dome sheaths.

Of course, a few misguided gentlemen, under the guise of "moral courage," will defy tradition. A summer's perspiration has persuaded the bucket-like cranium covers to assume lines, or curves, which conform to the

head and they're pleasing. But the majority will begin taking to a lid of another color, style, etc.

Once upon a time there was a man who wore a straw beany to a football game. The floral offerings were gorgeous.

For Itching Eczema, Old Sores and Piles

"I guarantee my ointment," says Peterson of Buffalo, "to cure eczema; to stop the itching at once and any reliable drug-cure will cheerfully refund your money if PETERSON'S OINTMENT doesn't do everything I say it will do."

William A. Carter of Franklin, N. Y., is surely a wise man. He writes: "I used PETERSON'S OINTMENT on a little boy suffering terribly with eczema. It did the work."

Then there is Alex. Loutal, a brave fireman of Buffalo, who is glad to write as follows: "I had an old sore on my leg for many years. The best doctors failed. PETERSON'S OINTMENT entirely healed the sore quickly." And from over in Canada comes a letter from A. Bickley, stating: "The best thing I ever hit for itching piles is PETERSON'S OINTMENT. A big box for 35 cents. Mail orders filled by Peterson Ointment Co., Inc., Buffalo, N. Y."

Miss Alice Dyer of Worley's Inn who was dismissed from Schirman hospital Wednesday after recovering from a recent operation, called her parents on Worley's Inn Wednesday evening from the home of friends on Twelfth street but the service on the telephone was so bad her parents could not understand who it was calling. The young woman did not go to

her home at Friendship and as her parents fully expected her yesterday evening and she did not arrive they notified the police to be on the look-out for her. Miss Dyer spent the night at the home of her friend on Twelfth street feeling satisfied that her parents had understood her telephone message and would not expect her last night. Miss Dyer went to her home this morning.

TO SAVE CAMP WELFARE BUILDINGS

The camp committee of the Civilian War Veterans' Association of the United States, which met Wednesday at the city hall, has decided that the welfare and fraternal organizations will be requested not to dispose of substantial buildings erected by them at Camp Sherman during the emergency and recently returned to them in line with the abandonment of the camp at a military center.

Washington address further state that the welfare and fraternal organizations will be asked to hold these buildings for similar purposes by the use of the Veterans' Bureau, in connection with the proposed vocational training center to be established there. It was stated further that it is already understood that the Knights of Columbus will not take advantage of the war department offer whereby they can salvage their three buildings in the camp, but will reserve them for the use of Col. C. R. Forbes, veterans' bureau chief, and that the lodge of Elks will do the same. The Y. M. C. A., Y. W. C. A., Jewish Welfare Board and Lutheran Service League have not yet been heard from.

Efforts will be made through the war department to save the \$70,000 gymnasium, \$30,000 library and an \$8,000 set of bowling alleys for the school center.

Why My Friends All Take Yeast Vitamon Tablets Now

To Make Firm Flesh, Increase Energy and Beautify the Complexion

"Just as my friends all started to talk about the wonderful health and beauty-giving properties of the vitamins in yeast and other raw foods, I heard about the highly concentrated form of true yeast-vitamins called Mastin's VITAMON. Once I started taking two of these tiny tablets with every meal I noticed results almost immediately. Others did too, for people began remarking about how well I looked—how much younger and prettier—and to say I felt better doesn't half express the truly amazing improvement. I have gained several pounds, my flesh is firm, my nerves are calm and there seems to be no end to my new found energy. Now my friends who so admired the change in me are all turning to the concentrated yeast, Mastin's VITAMON tablets and not only find them easy and economical to take, but results are so surprisingly quick."

The enthusiasm of this writer is like that of thousands, for Mastin's VITAMON contains not only highly concentrated yeast-vitamins, but the two other still more important vitamins (Fat soluble A and Water soluble C) which makes a proper dose to build firm tissue, strong nerves, rich blood and a keen, active brain. It will not cause gas or upset the stomach, but on the contrary, it is a great aid to digestion and in overcoming chronic constipation. Boils and skin eruptions seem to vanish like magic under this healthful purifying influence, leaving the skin fresh, clear and beautiful. So remarkable are the benefits from these highly concentrated Mastin's VITAMON tablets that entire satisfaction is absolutely guaranteed or the small amount you pay for the trial will be promptly refunded. Be sure to remember the name Mastin's VITAMON—the original and genuine yeast-vitamine tablet—there is nothing else like it, so do not accept imitations or substitutes.

You can get Mastin's VITAMON tablets at all good druggists, such as Fisher & Stroch, Werster Brothers, F. C. Miller, Bruders Pharmacy.

Plan For Bigger Attendance

When Supt. C. M. Howland and his bunch of coworkers, began making plans for the big Bible School at First Christian on last Sunday, they decided to set for their aim just 100 more than they had at the first Fall Rally on Sept. 12, 1920. The task was discussed from every angle and it was decided that if enthusiasm could be aroused, the job would be half done. It was soon aroused by several workers' meetings, the large amount of enthusiasm possessed by Supt. Howland and his aids, was catching and it soon spread to the school. While they were some what disappointed because weather conditions would not permit the school to reach the high aim set, yet they were very well pleased when the record showed 1024 present with 2 re-

Will Build New Boat

Capt. W. F. Kimble, local wharf-master, announced Thursday of the letting of a contract for the building of a new boat for the Green Line to replace the steamer Chris Green in the Huntington-Portsmouth-Cincinnati trade. The new craft, which will be constructed at the Pt. Pleasant docks, will be modern in every respect and it is planned to make her the fastest

boat operated on the Ohio river since the days of the Boston and Fleet-wheel. The dimensions of the craft will be 100 feet long, 25 foot beam and 6 foot hold. If plans do not miscarry the new steamer will be completed and made ready to be launched early next spring.

RIVER NEWS

The Ohio river was at a pool stage of 12.6 feet in the Portsmouth district Thursday morning, but this stage was expected to be lowered about two feet during the day in order to permit the raising of 10 wickets at Dam 31 below the city. This will not interfere in any way with navigation as there is plenty of water above with which to promptly refill the pool.

The Chris Green passed up Thursday morning for Huntington and due here on the return trip tonight when the Greenwood is also scheduled to reach here enroute to Cincinnati.

During 1920 supplies were the most favored gems.

OFFICER PLANS FOR HIS DEFENSE

Marshall George Hoop, of Peebles, who is out on \$2,000 bond for killing Fred Hughes in that village a few days ago, was in the city Wednesday arranging for his defense. It is said, Hughes was shot three times by Hoop following a personal clash with the officer over the arrest of another man. There is considerable feeling in the village against the marshal as a result of the shooting. It is said, many complain that the officer was not justified in using his gun and that he could have avoided the tragedy by calling bystanders to aid in placing the man under arrest.

Hoop, who was accompanied by his deputy John Smith, is said to have engaged a local law firm to defend him when the case comes to trial. The marshal claims that Hughes was armed with an open knife and that he fired the fatal shots in his proper self-defense.

Hoop entered a plea of not guilty which arraigned before Mayor W. H. Young of West Union, and waived examination to the grand jury on a charge of second degree murder. The charge was filed against the officer by Sherman Hughes, of Otway, father of the victim of the shooting.

GIRLS! LEMONS WHITEN SKIN AND BLEACH FRECKLES

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a potent cream of lemon juice and delicate lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring their soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate—advertisements.

Dear Miss Wise:—Will you please send me out the name of Hinton, W. Va., paper, also one or two more names of the Virginia and Kentucky papers, as we want to advertise some real estate in them. And in driving through to Los Angeles, which would be the best route to go? How late in the fall could a person start to get over the mountains before it gets too cold and bad?

There are two daily papers in Hinton, the Evening News and the Independent-Herald. The Advertiser and Herald-Dispatch in Huntington. The Southern in Grafton. It might be a good idea to insert an ad in the Farmers' Free Press, published every Thursday at Fairmont, W. Va. The Telegraph is published at Bluefield. The World-News at Romney, Va.; the News-Leader at Romney, Va.; the Leader at Staunton; the South West Virginia Enterprise at Wytheville, Va.; Kentucky papers include the Independent at Ashland; the News-Democrat-Messenger at Bowling Green; the Kentucky Advocate at Danville; the State Journal at Frankfort; the East Kentucky Journal at Grayson; the Republic at Greenup; the Big Sandy News at Louisa. If you will take the southern route to California, you will not bump into any "snow in the mountains." The best route from here is to go to Dayton, Ohio, thence to Indianapolis, St. Louis and Union, Missouri. Here you strike the Atlantic-Pacific Highway which takes you through Jefferson City, Kansas City and onto the Golden Belt Highway, which you can follow into California. Would advise you to join the Portsmouth Auto Club before you start on your trip, as they can route you through to St. Louis and give you a letter of introduction to the St. Louis Automobile Club and they will take care of you on the last lap of your journey.

Dear Miss Wise:—Several years ago there appeared in your column a recipe for canned vegetable soup, called a wartime economy recipe. If you have it would you please reprint it?

FARMER'S WIFE.
Here is a good recipe for canned vegetable soup—one half bushel of tomatoes, scald and peel. Two heads of cabbage, 2 bunches of carrots, 12 large onions, 18 ears of corn, 12 stalks of celery, 4 green peppers, season with parsley and salt. Cook one hour and can same in either fruit or vegetable. Add meat broth for soup. Potatoes may be added in winter when opened for use.

Dear Miss Wise:—About what is the average salary of a book-keeper? Is book-keeping a good vocation for a young man? If a vigorous, healthy boy of seventeen wishes to go to high school at Portsmouth, do you think he could work after school and on Saturdays and earn enough to pay his board?

COUNTRY STUDENT.
There are book-keepers and book-keepers. The salary depends upon what kind of a book-keeper you would make and upon your ability to land a job and work yourself up into a better one. It's a nice thing to know even if you never use it. You might be able to get work after school and on Saturday, but I do not know of any place just now. If you will send me your name and address, I will let you know if anything turns up.

A Real Hair Saver

Found at Last—Shows Results at Once or Nothing to Pay.

This Man Is Getting Bald. Parisian Sage Is Just the Thing for All Such Cases.

Here is good news for all men and women whose hair is faded, dry, streaked and straggly—is falling out, and whose scalps are covered with dandruff and itch like mad.

Your druggist can now supply you with the genuine Parisian Sage (liquid form) which is guaranteed to quickly and safely remove every sign of dandruff, dandruff, stop itching scalp and falling hair and stimulate new hair to grow, or money refunded.

Thousands can testify to its excellence; some who feared baldness now glory in their abundant hair, while others who were constantly annoyed with dandruff and itching head get a clean, healthy scalp in just a few days' use of this simple home treatment.

Parisian Sage is a scientific preparation that supplies hair roots. It's easy to use, perfectly harmless, not sticky or greasy, and even the first application makes the hair and scalp look and feel 100 per cent better.

If you want to save your hair, make it grow and look its best, don't delay—begin using Parisian Sage tonight. Wherever it is sold, it will supply you. A large bottle costs you only a few cents and gives perfect satisfaction—Advertisement.

HOW WOMEN AVOID SURGICAL OPERATIONS

Some Are Extremely Necessary, Others May Not Be

Every Woman Should Give Lydia E. Pinkham's Vegetable Compound a Trial First

Chicago, Ill.—"I was in bed with a female trouble and inflammation and had four doctors but none of them did me any good. They all said I would have to have an operation. A druggist's wife told me to take Lydia E. Pinkham's Vegetable Compound and I took 22 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occasion to take it again as I have been so well. I have a six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the gospel truth and I will write to any one who wants a personal letter."—Mrs. E. H. HAYDOCK, 6824 St. Lawrence Ave., Chicago, Ill.

A Vermont woman adds her testimony to the long line of those fortunate women who have been restored to health by Lydia E. Pinkham's Vegetable Compound, after it had been decided an operation was necessary:

Burlington, Vt.—"I suffered with female trouble, and had a number of doctors who said I would never be any better until I had an operation. I was so bad I could hardly walk across the floor and could not do a thing. My sister-in-law induced me to try Lydia E. Pinkham's Vegetable Compound and it certainly has helped me wonderfully. I feel better and do my work and have a small child. I have recommended Vegetable Compound to a number of my friends and you may publish my testimonial."—Mrs. H. R. SHARON, Apple Tree Point Farm, Burlington, Vt.

In hospitals are many women where there is nothing a woman dreads more than the thought of an operation, and the long weary months of recovery and restoration to strength if it is successful. It is very true that female troubles may through neglect reach a stage where an operation is the only resource, but most of the common ailments of women are not the surgical ones; they are not caused by serious displacements, tumors or growths, although the symptoms may appear the same. When disturbing ailments first appear take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. In fact, many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

French Caramels

Put two cups of sugar, 3-4 cup of corn syrup, 1-2 cup butter, and one cup of sour cream over the fire and let boil. Gradually add another cup of sour cream while the first mixture is boiling. Let boil, stirring frequently, until mixture forms soft ball when dropped in water. Add chopped raisins, dates and figs. Turn out on buttered pans without stirring. Cut in squares when cool.

He needs it—"The Iron Food for Vitality"

Tired Man's Dessert

Digests almost immediately Revives his Vim

Men are grateful for a pie like this

A Tired man's first need at night is new energy—to revive his lagging spirits and his strength.

Give it to him in this luscious pie. Effective and incomparably delicious!

You get almost immediate results.

For this pie—note the recipe—is made with tender, juicy, meaty raisins furnishing 1500 calories of energizing nutriment per pound.

Raisins are 75 per cent pure fruit-sugar (in practically predigested form) so require little digestion and therefore the energy is felt at once.

Raisins are rich in food iron. The "Iron Men"—the men of healthy blood—need but a small bit of iron daily, yet that need is vital.

There's no better way to impart the vitality of iron than through a luscious raisin pie.

Remember these facts when you choose dessert.

Give raisin pie to tired men in the interest of their pleasure and success.

SUN-MAID RAISINS

Use Sun-Maid Raisins, made from California's finest table grapes—American raisins, processed and packed immaculately in a great modern California plant.

Seeded (seeds removed); Seedless (grown without seeds); Clusters (on the stem). Also a fine, ever-ready dessert.

Raisins are cheaper by thirty per cent than formerly. See that you get plenty in your food.

A WIFE IN THE MAKING

THE NEWSPAPER STORY

Sure enough, the next morning brought the "Leader's" great piece of news out crisply on the first page.

"The Disgruntled Wives' club held its first meeting last night around a roaring fire. Much coffee and wine was enjoyed by all of the fair members, despite the fact that they are supposed to be disgruntled," ran the announcement.

"The intrusion of one of the members' husbands, however, broke up in a public and, however, before the ladies had discussed their men, plus plenty of other spicy subjects to their hearts' content. It is interesting to know that our own dear Mrs. Randall, Jr., is the president as well as the instigator of this particularly raucous little coterie."

Cherry greeted her best husband as she read this last clause of the writing and waited for her mother-in-law to open her paper and also read.

Mrs. Randall did so, all in good time. Her lower jaw dropped in righteously anger, and she looked over her spectacles at her publishing daughter-in-law in slow horror.

"Cherry, have you come into this family to disgrace it and turn an honorable name into an object of ridicule? How dare you let this get into the newspapers? It's high time that Ned was sent for. Maybe he can do something about suppressing you and your mad escapades. I'm sure I can!"

"Oh, I'm sure I wish that you'd stop trying to do it. It would be better for all concerned," said Cherry tartly.

"Oh, it would, would it? Yes, maybe to your way of thinking, but not to mine. I have the honor of our family at heart. I refuse to let you tarnish it. A Randall has always been able to hold his head up. And if you held the name as dearly as I do, you would let it figure in such a thing as this," pointing an accusing finger at the large headlines.

"I'm sure that I am not responsible for this report. Our meeting was strictly private, except that Miss Lullie Perry came in. But we stopped the meeting as long as she was with us. It is Mr. Wilders you have to thank for this write-up. He is a malicious person. After our cars not to let Miss Lullie hear us at our work. Dick just spilled the beans for spite, and made fun of us, as she was going out of the front gate. Thank and blame your fellow-townsmen, mother, not me."

"There's no use blaming or excusing anyone. Dick Wilders has a perfect right to make fun of his wife and of the rest of you if you act like children. We are not used to such tactics here in Wellsburg. You may as well know now as any other time that we don't wish you to come here filled with the idea that you can reform us. Cherry, you are an outsider, and will have to adopt yourself to our ways. Not we to yours. Remember this, please. I shall telegraph to Ned."

"And I shall also telegraph him," said Cherry angrily. "I'm tired of this sort of thing—thoroughly tired. Now let's see what Ned will do."

"The Old Nest," The Greatest Story of Home and Mother Love Ever Told on the Screen, will begin an Unlimited Engagement at the Columbia Starting Next Monday Afternoon. You have read about it in all the Magazines. Now don't fail to see this Truly Wonderful picture.

When "The Old Nest" comes to the Columbia Theatre on next Monday, the people of Portsmouth will have a chance to see a picture that has been hailed by critics and reviewers as the most satisfying all-American picture that has yet been produced. The theme, that of a mother who sees her six children leave her, one by one, is common to American families. All the poignancy of feeling that these leave-takings arouse in real life have been caught on the screen. Rupert Hughes is the author of this unusual tale of mother love. He has sought to present a cross-section of a universal theme, as applied to an

GEORGE D. BAKER PRODUCTION WITHOUT LIMIT

A romance of rash youth, as seen with the understanding and merciless perception of experience.

From Calvin Johnston's story, "Temple Dusk," in The Saturday Evening Post and enacted by a notable cast headed by ANNA Q. NILSSON

Direct from the Capitol Theatre, New York, the Worlds Largest Theatre—The Eastland Theatre will offer for Three Nights Starting Tonight, Metro's Master Production "Without Limit," with Anna Q. Nilsson, a story of the Gamble of Life and Love.

PROGRAM

A—The Selznick News.
B—Century Comedy "Gaffing" featuring Brownie, the Wonder Dog.
C—Overture, Eastland Orchestra—Wm. Spitzer, Director.
D—Metro presents Anna Q. Nilsson in "Without Limit."

A short time ago thousands of readers were startled by a story that appeared in The Saturday Evening Post. It was "Temple Dusk," by Calvin Johnston. Now the story has been pictured under the name of "Without Limit" and will be seen at the Eastland Theatre tonight where it begins a run of three days as the feature attraction.

Those who have not seen it may rest assured that for stark power, compelling interest and a plot of persons living in wealth on the skirts of society, "Without Limit" cannot be beaten. Not only is the plot engross-

ing, but the picture is a George D. Baker production released by Metro, and featuring Anna Q. Nilsson, the lovely screen beauty.

"Without Limit" tells of Emile, the little girl who in a drunken moment marries a coward, and discovers her mistake in a sumptuous gambling palace. She learns that her new husband is a forger who refuses to take his punishment at the hands of Emile, the strange gambling king. Emile almost sinks to abandonment, while her husband, whom she has left, takes a struggle on life. The dramatic atmosphere in the gambling den and in a venerable church.

The all-star cast includes Anna Q. Nilsson, Robert Frazer, Frank Currier, Kate Blanche, Charles Lane, Robert Schable, Thomas W. Ross and Nellie Anderson. Andre Barlatier photographed the production, while M. Stanleap designed and executed the art interiors.

WHY DO YOU CODDLE CORNS?

A Simple Touch Can End Them and At Once

Why pare a corn and keep it? Why not let it go? Why treat it in old ways, harsh, crude and uncertain?

Millions have found a new way. It is Blue-jay—the plaster or the band. A single application, and the pain stops instantly. Then the whole corn quickly loosens and comes out.

The way is simple, sure, sure. A simple touch can end them and at once.

To find out thousands of people write to Blue-jay. Try it on one corn and you will always let it end yours. Start tonight.

SIX HEAD OF CATTLE ESCAPE; ONE MISSING

Charles Goodard of Haverhill started to Portsmouth Monday with six head of cattle. When he reached a point in front of the Wheelersburg school the cattle became frightened at the school children and got away Tuesday four of the six were found on the Adams Glavin farm two miles over the hills from Wheelersburg. Later another was found on the Glavin farm but the sixth animal is still missing and is thought to be grazing in the hills near Wheelersburg. Anyone finding the stray animal should report to Mr. Goodard.

Why It Is Called Wall Street.

Wall street, New York, derives its name from the old wall that extended along it in the old Dutch days, and marked the northern boundary of the town of New Amsterdam.

Anita Stewart in "Playthings of Destiny"

Anita Stewart in "Playthings of Destiny," Her Latest First National Picture Production, Opens a Three Day Engagement at the Columbia Tonight.

"Playthings of Destiny," the Associated First National Pictures attraction which will open a three day engagement at the Columbia Theatre, beginning today, is hailed by critics as being the strongest dramatic production in which Miss Anita Stewart has ever appeared. It was adapted from "The Tempest," a novel by Jane Murray, by Anthony Paul Kelly, who has prepared the scenarios for some of the most notable screen successes.

The story is of Julie Latham, a Catholic backwoods school teacher, who is led to believe that Geoffrey Arnold, with whom she is intensely in love, had a wife living at the time he married her. She flees from his cabin in the midst of a blizzard, and nearly freezes to death before she is found by Herbert Randolph. They are snow-bound in his cabin for six weeks, during which time Randolph learns to love her and proposes marriage.

Julie is aware that in the near future she is to have another life to earn for, and, after frankly telling Herbert she does not love him, accepts his offer of marriage. Herbert flees rapidly in the world's first airplane, when the Earl of St. Dunlop arrives on the island to select the man for the post.

The Earl is Geoffrey, who has come into the title through the death of a relative. Julie discovers that she still loves Geoffrey, but, beyond betraying the secret of her love, death together, and she are facing death together. Then comes the clearing away of the misunderstandings, and the climax which is as strong in emotional dramatics as any scene yet played on the screen.

Is Eye Strain A Rare Condition?

By no means. Most people are not aware of its prevalence nor of its effects upon those who have it to any extent. But a man who is even a little informed on the subject of Optometry knows that eye strain is sufficiently prevalent, and that its effects are so detrimental, as to merit a great lowering of efficiency among people generally. Help your eyes with our glasses.

Conference Teams Start Football Practice

CHICAGO, Sept. 15.—The ten Western Conference football squads today held their first practice in preparation for a season which finds most of the stronger eleven of the 1920 season faced with the task of replacing a majority of their former stars and two of the full enders of last year, striving to develop the teams which will make creditable showings on scheduled eastern invasions.

Squads ranging from two to four were reported to the gridiron instructions at the ten fields today with the interest generally accorded Illinois, Michigan, Wisconsin and Ohio State championship teams temporarily subdued by that given Chicago and Indiana, the two eleven which will carry Western Conference honors into fall of the larger eastern schools for the first time in years.

Chicago faces Princeton at Princeton, October 22 in the first of a home and home series scheduled between the two schools.

Indiana university will trade funds with Harvard at Cambridge on October 8.

In the conference itself, Ohio State, in order to retain its 1920 championship, may need even more good football than last season when two games were won by one point and another by a touchdown actually made after the final whistle had been blown.

Stimulated former All-American half, "Hokey" Workman, the middle-west's greatest forward passer, and who in football's hall of fame will have to be replaced by Coach Wiley, of Illinois and Wisconsin are expected to show considerable strength, although the latter has lost many stars, while Illinois, Minnesota, Northwestern, Iowa and Purdue are the "dark horses" of the season.

The schedule presents an unusual arrangement this year, Ohio State and Wisconsin, ancient rivals, have severed football relations and will not meet until Chicago and Michigan or Minnesota and Illinois, all after mid-November, resumes its rivalry with Wisconsin. Practice games will be played at Northwestern and at Indiana a week from next Saturday, but the regular season will not get under way until October 1.

Times Bureau On The Job

When William Bidwell was here the Robinsons' often a short time ago wrote The Times' Information Bureau at Washington for information concerning a pair of Australian "opossums", of which he then was the owner. The Bureau has advised the showman that the name "opossum" is not in Australia for several names of widely different families and are called to the name. Being unable to determine just what species of opossum referred to in the letter, the Bureau has asked Bidwell to furnish a more complete description of his animals.

Dawes Saves \$115,000,000

By N. E. A. Service

WASHINGTON, Sept. 15.—American taxpayers have saved more than \$115,000,000 by employing General Charles G. Dawes as director of the budget for the last three months.

That \$115,000,000 will be saved through measures introduced by Dawes that can be reduced to actual figures.

Last, besides, Dawes has set up half a dozen economy measures, and he fears that will result in the saving of uncalculated millions as time goes on.

The first thing the new budget director did was to cut his own appropriations.

Congress granted the budget bureau \$225,000—considered a very small sum for a bureau of the importance granted to other departments. Dawes promptly topped off 25 per cent of that. He says he'll accomplish all his economy saving at a cost to the government of only \$168,750.

Next, Dawes announced his budget estimates for all departments. He showed that he had cut down costs enough to save \$12,542,000.

The largest saving was in the Treasury Department—\$3,632,140. The next greatest was in the Interior Department—\$1,827,251.

"The budget machinery," Dawes says, "must last as long as the republic."

"I am not an administrator. My office is simply collecting information for the use of the president and Congress, who will get or will not get on in their own good judgment."

Cross Leading Horseshoe Pitchers

The standing of the individual players in the horseshoe tournament show the changes that might be expected to take place in the two weeks time. As the old song goes:

"O'ye some goes up, and o'ye some goes down, And ye gits to the bottom, safe and sound."

Cross is still leading in all departments except one. He has made 750 points, and his old sidekick, Herley, is second having displaced N. Kitchen. Cross also has a big lead in rings having thrown over forty more than his nearest rival. Heine Roth has of fered a pair of shoes to the highest ring thrower, and it looks as if Cross would throw them. His record of 84 points for 5 games still stands, but Swickert slipped up and passed him by 2 points in the greatest number of rings thrown in five games, having made 29. Cross threw 28 the next night but couldn't quite catch him.

The Hilltop A. C. and Terminals First players have dropped in their standings, owing to the fact that they did not pitch last Friday night on account of an error in the schedule. They will make up this game some time next week.

The Campbell Avenue team is the only team that has all four of its members in both standings.

Though the Iron Men are third in the standing and fifth in ring throwing, they certainly set the pace when it comes to point making, having made 2295 points during this tournament. Their nearest rivals are the Cleaners who have made 2280, and the Campbell Avenue team, which has made 2215. The Hilltop Eagles are fourth with 2167, the Terminals First (who split the fact that they are one evening behind fifth with 2119, the Pioneer Second, sixth with 2070, the Spring Street seventh, with 2023, Trinity eighth with 1982, the Steel Plant ninth with 1947, and the Hilltop A. SAVES LIFE OF FRIEND BY GIVING UP BLOOD; HEROINE KNOWN HERE

The Ravenswood Citizen, a publication of "Uptown Chicago," tells how the life of a Chicago woman, Mrs. Clara Forsberg, was saved by blood transfusion, the life-saving fluid being given up by Mrs. W. P. Holmes, a friend. Mrs. Holmes is a sister-in-law of Mrs. John W. Lewis, 307 Second street, this city, and is well known

here. She visited here recently and had just returned to Chicago, when she learned of the predicament of Mrs. Forsberg, who is employed under her, and at once offered to undergo the sacrifice. The Citizen says:

"Mrs. Clara Forsberg will live now that she has been given the pint and a half of red blood she needed. About three weeks ago Mrs. Forsberg underwent an operation at the Michael Reese hospital. The operation was of a very serious nature, leaving the young woman minus a part of her stomach. Her life was despaired of, the suggestion being made by the doctors in charge that 'were she a rich woman, it would be possible to buy a transfusion of blood for her, thereby

prolonging her life.' Mrs. W. P. Holmes, who lives at 5348 Kenmore avenue, and under whom the young woman is employed in a Michigan avenue business house, informed the physicians that 'although the girl chanced not to be rich in this world's goods, she was in friends,' thereupon offering herself to give the life-giving element. One other, Miss Leinwald, whose blood did not pass the test, offered; that of Mrs. Holmes reaching the next to the highest of four points of which a blood test consists, was accepted. Dr. Straus, surgeon at the Michael Reese hospital, effected the transfusion, which covered an hour. As it continued the patient revived, and by the time one and one-half

pints of blood had flowed into her veins a decided improvement was noticeable. She is now gaining in strength rapidly.

"Mrs. Holmes experienced no ill after effects, although she carried for a few days ten stitches in the arm where the incision was made. Upon returning to business the same afternoon an unusual demonstration of appreciation was shown her and a real gala day celebration was held with quantities of flowers, candy and 'ever' thing."

Evidence Against Accused Murderer Is Circumstantial

Patrolman George Harding departed Wednesday night for Ft. Pleasant, W. Va., where he will appear today as a witness for the state in the case of "Holly" Griffith, now on trial for his life in that city for the alleged murder of Ira Roush, young riverman of Annapolis, Ohio, a few months ago. The evidence in possession of the state is purely circumstantial. It is said, but points strongly to the guilt of the accused man, who is regarded as a desperate character, having escaped from the Mountsville penitentiary a few days prior to the time the alleged murder was committed. Significant in the chain of circumstances against Griffith is the fact that he left Pomeroy with Roush in the latter's motor boat and a few days later the bullet riddled

body of the riverman was found floating in the Ohio river near Ft. Pleasant. The boat was later found here by Patrolman George Harding and the man who abandoned it here was identified by a number of local persons as being the escaped convict. After a long chase Griffith was captured in South Carolina and returned to West Virginia.

Special Sale And Demonstration Of The New Barmon House Dresses

The dresses with the four famous features that mean comfort and convenience to Autumn house cleaners.

Tomorrow we start a sale of House Dresses that will lighten the burden of all women who wear them during the days of Autumn House Cleaning.

They are dresses that allow the body free, easy motion which is a comfort welcome to women engaged in the strenuous task of putting the house in order for the long winter.

Many models of graceful charm to select from in sizes to fit all women perfectly.

They are, of course, designed and intended for frocks of practical purpose yet they are fashioned in many clever ways that express good style and becomingness.

A special demonstration of the features found only in these dresses will be held in our store during this sale. It is something of interest to all women, particularly those women of hard-to-fit figures who can be perfectly fitted with these dresses.

More than 50 new models to select from in a vast variety of new colors and patterns in all the most desired wash fabrics.

Regular Sizes, 16 to 46 at \$2.50 to \$5.00.

Extra Sizes, 48 to 52 at \$3.00 to \$5.00.

The FOUR FAMOUS FEATURES

The Adjustable Waist Line

By merely buttoning two buttons located on the waistline, the dress can be adjusted to fit perfectly, any type or size figure.

The Under-Arm Shield

Double wear is provided by these Under-Arm Shields which are tailored into the Barmon Dresses featured during this sale.

The Adjustable Skirt Hem

Pull a thread and the skirt is lengthened. No ripping or restitching of seams necessary. This is another exclusive Barmon Dress feature.

The Menders Of Dress Material

Handy menders of dress material attached to each dress. Ready at any time for repairing worn or torn spots.

Several Greenup citizens enjoyed the thrill of hydroplane flying last Saturday. A privately owned "bird" from Ironton, Ohio, hovered over town all day and took several persons up among the clouds for a brief spell. This was the first opportunity given citizens for a close-up of a lighter-than-air vehicle and occasioned much curiosity among the older folks, some of whom hadn't left the moss-grown, green shuttered window of their dark parlors for a quarter of a century. And to those of the later generation, viewing the spectacle with much awe, it seemed like a review of the old family album.

Greenup high school boys have organized a foot ball team for the coming season. They will practice all this week under Coach Arthur Stewart and their first game will be Saturday afternoon when they meet Ashland High.

The Greenup White Sox ball team will go to Vandalia, Ky., Sunday for a game with the fast Specialists of that city. These teams have met but once this season and resulted in victory for the Sox. Thedford's Black-Draught Highly Recommended by a Tennessee Grocer for Troubles Resulting from Torpid Liver.

East Nashville, Tenn.—The efficiency of Thedford's Black-Draught, the genuine, herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver."

"I have known and used it for years, and can and do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr. Parsons describes—valuable in regulating the liver to its normal functions, and in cleansing the bowels of impurities.

Thedford's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Thedford's.

WEDNESDAY'S TENNIS TOURNAMENT RESULTS

Two matches in the men's singles tennis tournament were played Wednesday evening. P. G. Wylander of Rose Ridge Club winning from L. E. Butler and Earl Mumper winning from Paul Fleming.

The first match was played on the Rose Ridge court with Wylander winning by scores of 6-3 and 6-4. Mumper and Fleming played on York park court, Mumper winning 6-2 and 6-2.

NEW YORK, Sept. 15.—President Harding continued his yachting cruise today by coming from Southampton, Long Island, where he played golf yesterday, and going up the Hudson to West Point.

With Mrs. Harding and friends, he had a night trip the length of Long Island, on the ocean side, and an early morning view of the Statue of Liberty and the skyline of lower New York, which invariably delights tourists. Weather conditions were unimpaired for observations.

The president hoped to review the West Point cadets this afternoon and then see if he could do better at golf than he did yesterday at Southampton, where he said: "doing out 1 made eight holes in 42; then I blew."

Marine Corps Wins Match

CAMP PERRY, O., Sept. 15.—The United States service match of the National Rifle Association tournament goes to the United States marine corps team with a total of 7,261, according to unofficial reports. The event was concluded late yesterday, but official figures were not available early today.

Sixteen men comprised each team. The United States navy had 4,220 and the United States army 5,208. The individual eight five pistol match, finished late yesterday, was won by A. P. Lane, New York civilian, with a total of 187 out of a possible 200. E. G. Reising, Hartford, Conn., was second, with 183, and Lieutenant L. J. Harran, United States infantry, with the same total, was placed third because his score on the last range was lower than Reising's.

Dr. E. R. Collins of Springfield, Mass., who yesterday won the National Rifle Association pistol championship, landed first place in the 22 calibre pistol slow fire match, with a total of 190 out of a possible 200. A. P. Lane, of New York, was second with 188, and R. P. Frederick, New York, third, with 186.

G. W. Rice, Springfield civilian, was first in the final five pistol match with 193 out of a possible 200. A. P. Lane, second, with 191, and Sergeant W. A. Holden, United States infantry, third, with 190.

ALWAYS THE OTHER FELLOW

A member from Missouri, in congress, the other day, pleaded for handsome treatment, which meant big appropriations for river improvement.

In part his argument ran that the railroads were charging excessive rates and the country was stagnating because business and productivity could not afford to pay them.

Boring further along in his speech, we tapped the milk in the coconut, as it were. We learn, for instance from the statement of the honorable gentleman that Missouri is the only state in the union which produces barytes in copious quantities. Barytes is quite an important mineral substance and it ought to have a market of its own in this country, but it hasn't, at least according to the argument of the gentleman from Missouri. Pauper labor of Europe digs the stuff so cheaply that it can be brought across the ocean and dumped in New York cheaper than the Missouri product can be hauled across the Mississippi.

Of course, the argument is a protective tariff and reduced rail rates. We can't follow the gentleman and his logic seems to run a trifle lame. It looks to us that barytes would be as badly off at New York as it would be at the St. Joe lead mines. Neither point is a consuming market and the railroads charge just as much to get out of New York and they do in, for any other point of the compass, in so far as rates are concerned.

On the other hand the poor railroads complain they can no more than eke out a miserable existence at present rates and proud are they to be able to do that much. They want more rates, anyway a lot more business than they are getting on the present ones.

Not for us to say here whether there should be lower rates in order that barytes might flourish and enrich, or freight carriage should be doubled. The point is every fellow is for himself and the devil take the hindmost. The Missouri man wants the government to spend untold billions in improving the navigation of the Mississippi so barytes can visit Gotham on equal terms with the foreign beggar, but he is not whole heartedly in the government helping out the railroads.

Our people once owned baryte mines, out of which they were cozened by the big interests. We are for the railroads because one of the biggest and best railroads plays a big part in our prosperity—in Democratic times, people possess its pleasant acquaintance. We are against barytes because it is a real Republican bawling, crying for more pay and higher protection.

New Kind of Clock

A clock recently invented in England has some novel features. One of these is that the weight of the clock itself is the moving force which actuates the mechanism, the clock sliding down two vertical pillars; to wind it, therefore, all that is necessary is to push the clock up to the top again. One advantage attending to this system, in addition to its simplicity and the absence of keys, is that the need for winding is visible at a glance; hence this necessary operation is not likely to be overlooked.

To Subdue the Light

To modify the brilliant stream of light that falls from an electric lamp which has a porcelain globe it is a good idea to make a shallow bag of the thinnest silk in very pale flesh color or ivory, mount it on a heavy wire or feather boning hoop which will fit the lower part of the porcelain shade and draw the bottom together, fastening it with a Chinese tassel. Chiffon or any very transparent material is equally good for making this shade.

Crossing The Delaware Now

By Frederic J. Haskin

PHILADELPHIA, Pa., September 15.—According to statements issued by the authorities of the Quaker City, work has been begun on the longest suspension bridge in the world.

This is the new bridge planned to span the Delaware river from Philadelphia to Camden. The plans show the span length near the Philadelphia terminus to be a distance of 1,750 feet between towers. The main span of the Brooklyn bridge is only 1,596 feet, and that of the Williamsburg bridge, 1,600 feet in length. The height proposed for the east main river tower is 280 feet above the river. The bridge in its entirety will exceed any other suspension bridge in the world, for length by 170 feet, if the present plans are adhered to.

This bridge, the cost of which has been estimated at nearly \$20,000,000, is both a relief and the fulfillment of a long-cherished desire to business men of the city. It is, according to authorities at the City Hall, one of those things the necessity and practicability of which has long been acknowledged by citizens on both sides of the Delaware river, but which has been delayed by circumstances.

Now that definite action has been taken and arrangements for the progress of the work made, Camdenites and Philadelphians are sighing with relief and asking each other, "Why didn't we do it long ago?"

The state of Pennsylvania and the city of Philadelphia will each pay \$8,275,500 toward the expenses of building the bridge and the state of New Jersey has appropriated \$12,224,000.

There was much discussion over the location of the Philadelphia terminus of the bridge. Finally, after an unusually hectic meeting of the Pennsylvania Commissioners on July 20th, a vote was taken resulting in the selection of the Franklin Square-Veal street site. The New Jersey Commissioners voted solidly in favor of the site which was at length selected.

Saved the Church

The Franklin Square Plaza is ideally situated in the center of the arteries of Philadelphia traffic, so that direct routes from that end of the bridge will lead into all parts of the city. The fate of one structure with a known historical or sentimental value was involved in the original plans. This was St. George's Methodist Episcopal church. The venerable edifice, called by many the Shrine of Methodism, is located on the site of one of the roadways planned to be cut parallel to the new bridge. The early suggestions were in favor of moving the church to a location more artistically fitted to display its quaint charm. Later, however, other plans were drawn up changing the approach to the bridge and thus eliminating the necessity for removing the old church.

In Camden, fortunately, there was no property in the path of the proposed bridge, and its auxiliary roadways, which was of historical value and interest. The site chosen for the Camden terminus of the bridge seems to have proved an unusually happy choice. The renovations necessary to direct the great tide of human being, and vehicles which will cross the new bridge into the city of Camden will involve neither the forcing of traffic through that city's busiest streets nor long, awkward detours.

The deep enthusiasm which the state of New Jersey feels toward this project is expressed in a most practical manner by the fact that the \$5,000,000 bond issue was heavily oversubscribed at Trenton, when the bids were first opened there on June 28th by the New Jersey State House Commission.

Ralph Modjeska, internationally known for his great list of successes in civil engineering, was unanimously appointed to the position of chief bridge engineer. George S. Webster and Lawrence A. Ball are other members appointed to the board of engineers for the construction of the Delaware bridge.

Mr. Modjeska is a native Philadelphian. Born in Camden, Poland, in 1861, with the original terrible sunburn of Modjeska, he came to the United States with his mother, Helen Modjeska, who was celebrated as a pianist in 1870. The modification of the Modjeska surname was made in the time American nationality papers were applied for. Mr. Modjeska was graduated from the University of Pennsylvania in 1884.

He has gained many important positions in the field of his profession, and with several honors. He was the first to design the suspension bridge from the University of Pennsylvania in 1891. He has gained many important positions in the field of his profession, and with several honors. He was the first to design the suspension bridge from the University of Pennsylvania in 1891.

work. He will be in full charge of all details regarding the structure and will have a fully organized staff to carry out his instructions. Mr. Webster and Mr. Ball will each receive a monthly salary of \$10,000.

To Carry Great Traffic

Among the most important things planned for the Delaware bridge by the engineers of the bridge. Commission are six roadways, four trolley lines, two for high-speed service, and two ten-foot walks for pedestrians. In this way, all kinds of traffic can be readily served. The grumpy, policy old ferry-boat between these two cities seems to be doomed.

What would George Washington think could he but know what is planned as the twentieth century method of "crossing the Delaware." The cakes of ice which may form in the river in the winter time will not have the power to affect traffic from shore to shore of the Delaware in the future as so graphically depicted in the thousands of copies of that famous old steel engraving that used to hang on every best parlor wall.

While no definite date has been set for the completion of this great suspension bridge, it is generally hoped that it may be completed and in good working order in time for the celebration of the sesqui-centennial of the signing of the Declaration of Independence for Philadelphia in 1926. Thousands of tourists to this exposition in honor of the 150th anniversary of the signing of the Declaration of Independence will find this bridge a boon indeed.

Work on the test borings for the bridge were begun on August 15th, but the actual construction of the bridge was commenced on Labor Day, when a large celebration was held.

Considerable interest in the construction of this bridge has been expressed by foreign nations. Engineering societies and other organizations in Mexico, Portugal, France, England, New South Wales, Hawaii, Argentina, Holland, Colombia and Peru are among those which have shown marked interest in the report announcing the arrangements for building the Delaware bridge. It is apparently in imminent danger of becoming the ninth wonder of the modern world. At any rate, it will undoubtedly prove a great convenience to two of our busiest cities.

New-York-Day-By-Day

BY O. O. MCINTYRE

NEW YORK, Sept. 15.—Frank Bacon, wearing his dusty gray hat, steel rim specs and accustomed smile (To paraphrase: Yes, he was fully clothed), sat in the big automobile with New York's Mayor while several thousand enthusiasts marched behind to bid him farewell.

He was leaving New York after a run of three years and one day in "Leghull." It was a great tribute to an actor and he represented more than anything. I have ever seen the spirit of Broadway. Broadway likes to welcome its heroes and prove them clay, but when it can't be done—Broadway cheers. Broadway is never for the loser. But always for the winner.

And yet, as I watched Frank Bacon bowing to the crowds and smiling happily I somehow imagined he had his tongue in his cheek. For twenty years he played the one night stands in the same character, never able to get nearer Broadway than Times Square, Pa. He is well up in years now, his great shock of hair snow white and his face criss-crossed with the red-tide lines of age.

His is the longest theatrical run in the history of Broadway and he might easily have remained another year save for the contract that made it imperative to open in Chicago. He was the typical tank actor of our comic weeklies and has walked the railroad ties from town to town.

He finally gave up his fight to reach New York. He was recommended to the deary routine of gas lit town halls when success came. In three years it is conservative estimate that Frank Bacon has made a million dollars. There were play-wrights, books and a dozen other royalties besides his big salary as a star.

He is the same home-spun, lovable fellow he was in the less prosperous days. One may see his prototype in any small town—lounging about the hotel, post-office and drug store, the kindly, humorous village philosopher. I used to see him almost every evening standing under the campied entrance of the Astor. Now and then he would step out to the curb and gaze northward into the flaming lights that heralded his name. Somehow Frank Bacon could never believe it was all together true.

Charlie Chaplin is getting gruff. Those who know him were surprised when he arrived in town the other day with his jet black hair shined with white along the temples. One evening around ten o'clock I saw him strolling down deserted Fifth Avenue. He stopped to look in almost every window and seemed particularly interested in a haberdashery window filled with gay colored lounging robes.

Hell's Kitchen has "ganged another cop." One of the bravest men on the police force was lured to a vacant lot and pistol to death. It was done in the dark and the policeman hadn't a chance. I visited the frequented double lot where the "Goon Gang" held forth. It is enclosed by solid wooden fences. The eastern half of the area is taken up by the ruin and debris of a fire. Some one has opened holes through the debris and a man may drop through one of these holes and land in what was once the basement of a small loft building. The old basement now is a maze of passages and tunnels. The whole place suggests the excess in movie serials. You almost looked for black bottles with spluttering candles stuck in their necks.

Hell's Kitchen is a district of tom-toms, cheap shops, pool halls and soft drink parlors. The young gangsters, the police say, are nearly all herein addicts.

To be in style women must have hats with something hanging off the side. Either something that looks like a fox brush or a flock of ribbon streamers. Two minutes in the Claridge or a square's stroll along the avenue reveals all the smart dressers in this form of headgear.

TOPICS OF THE TIMES

Old Ideas In New Form

They are what we all write. An old thought given fresh expression attracts; although old ideas in the old form of the King James version of the Bible have never been excelled. The nearest approach to it in versatility is Shakespeare's work.

The modern cleverness in frivolity is seen in the Sun over the signature of Edwin H. Chander. To "Young Men in Love" he writes:

At the fairs in my youth, There were sold Balls of red rubber—to bounce You squeezed them a bit, And they went Empty and desolate.

But give them a minute, Let them lie a time enough, . . . A caustic bit of "Advice to Young Women," with obvious implications, is as follows:

If a pitcher must go to the well More than once, Have it painted and glazed, And call it a challenge.

But most men can be won better without channel. However, Chander takes a center shot at the sterner sex when he writes:

The wisest of men, I observe, In speaking of women Reserve to themselves The right to be wrong.

Poor man! Vain, opinionated, of the earth earthly. Even in his best integrity and worth, he swings high in the scales compared with a good mother.

The Love of Familiar Noises

Music hath charms and graces. When one is bereft of familiar sounds, steamboat whistles, church bells, and other musical noises, he feels as if in a city his ears are assailed by many horrid sounds, the tinkling of motor cars, sharp cries of news boys, grating of street car wheels, and the "dull roar of traffic." Then when evening comes he longs for the howling of calves, the chant of bullfrogs in the soft air, the bawling of ducks. When they come not to his ears he wants to go home.

All men who have had a period of farm or village life will get out their "hobby," which is that the loss of familiar sounds make one lonely. But there is one music made by a well known creature that nobody seeks or longs for. It is the falling of the name he rests on his wings. That gentle sound, beginning "ay" and gradually ascending to a high shrill, penetrating cry, and then slowly dying away, is about the most beautiful

of all rural sounds in summer. Going out to hear the loquists sing will never be a popular sport.

But the noise of the loquists has a peculiar origin. He rubs his legs on the veins of his wings, while they buzz against his abdomen. His legs are the bows, the wing veins are the fiddlestrings, and his hollow abdomen is the sounding board.

The Neglected Treasury

A Philadelphia clergyman has been lecturing on biblical poetry—a good thing to do in this decade of dense ignorance of the literary characteristics of the Great Book. We write for newspaper audiences that are highly educated in many directions, but we dare say here and there among our readers are persons who would never think of looking in the Bible for a passionate love poem, or for war anthems, rhapsodies, songs, psalms, prayers, hymns, narratives in verse, dirges, descriptions of battles, kisses and embraces—but they are all there.

Remarkable essays, dramatic monologues, oratorical utterances, thrilling stories, visions, orations, narratives, sprinkled through the text now, so seldom seen among the books on literary tables. The Bible is a wonderful compilation of the best thoughts of God which man has had, but it is more than that. It is a literary treasure house of thrilling interest.

Prof. Martin rendered a great service to all readers of taste when he arranged the biblical text in modern literary form in his "Modern Reader's Bible." We are all influenced by the typographical form of the things we read. As we write, two essays he before us, one on "Adaptation of the Language of Various Sorts of Men," the other on "Wisdom and Government." Both are from the Good Book and new sentence in the latter is: "A man full of tongue is dangerous." Readers seeking "top" and thrill may find plenty of both in the Good Book unsurpassed as a literary production.

Reprisal!

There's a little boy in our town who was given a puppy for Christmas, and the gift being at the puppy's nose, when everything looks good to chew, he bites harder sometimes than he should. One morning, several days after Christmas, the little dog ran howling from the room. When the little boy's mother inquired what was the matter he replied: "He bit my finger and he can't learn to stop biting, so I bit his ear!"—Tribune Journal.

Q. Is there an Assistant to the President? W. T. K.
A. At the present time there is no such office as Assistant to the President. The creating of the position of Executive Assistant or Assistant to the President has been discussed, as it has been thought possible to reduce the President of some routine executive duties.

Q. How can peppers be peeled for eating? J. M.
A. Place the peppers in a hot oven six to ten minutes, until the skin cracks and blisters, but do not let them burn. The skins can then be removed easily with a slender prying knife.

Q. What crimes are punishable with death under English and United States laws? A. W.
A. Under English law there are four crimes for which capital punishment may be exacted. They are: setting fire to royal dockyards or arsenals; piracy with violence; treason; murder. In the United States each State has jurisdiction over its own territory. Crimes punishable with death include in various states: treason, murder, rape, piracy, robbery of the mail with jeopardy to the lives of persons in charge, rescue of a convict going to execution, burning a vessel of war, and corruptly destroying a private vessel.

Q. Is Postmaster General Hays chairman of the Republican National Committee? F. T. O.
A. Shortly after he entered the Cabinet, Will H. Hays resigned as Republican National Chairman and was succeeded by John T. Adams, National Committee man from Iowa.

Q. Just where is the Muscle Shoals Power Project located? A. W.
A. The Government Project of Muscle Shoals is the Muscle Shoals Dam, known as the Wilson Dam, near Florence, Ala., which has a normal population of about 7,000. Muscle Shoals itself is a rapids on the Tennessee River and is the end of navigation, where the river is again open to navigation.

Q. Is a Xanthoxanthin cheese a good cheese? G. E. S.
A. Xanthoxanthin cheese is not better as a cheese, since cream cheese is usually made from milk having about 6 per cent fat, while Xanthoxanthin cheese is made from milk having only 4 per cent fat.

Q. What is the difference between a good and a bad cheese? A. W.
